## Thai Cuisine

**“Thai food offers a variety of flavours and tastes. The subtle mixing of herbs and spices and market-fresh ingredients makes dining a special culinary experience.”**

**Eating ranks high on the Thai scale of pleasures, and meals are informal affairs. The staple is rice, either ordinary or glutinous, accompanied by a variety of dishes that can be eaten in almost any order, and seasoned to individual taste with several condiments such as fish sauce and chilli peppers.**

**Most often there will be a soup of some kind, a curry, a steamed or fried dish, a salad, and one or more basic sauces. Desserts may consist of fresh fruit or one of the many traditional Thai sweets.**
